JPGlobal Analytics

From Data to Dashboards

Business Intelligence for **M-Files®**

Data is merely numbers when it lacks the right tools to extrapolate connections, meaning, and insights. JPGlobal Analytics allows you to transform M-Files data into dashboards through our powerful interactive dashboard designer. Start visualizing performance, trends, forecasts and results with charts, gauges, indicators, tables and much more.

- ☒ Use valuable metadata in M-Files to build custom reports and automation into your processes
- ☒ Gain insight into your workflows and the time it is taking to complete them
- ☒ Connect to multiple applications like Accounting and your CRM to compare to data within M-Files
- ☒ Measure and track company KPIs and filter by location, department, product, etc
- ☒ And Much More!
