# NIVEforms

What is it?

Nive Forms is an easy-to-use and fully customizable web-based solution for creating forms and collecting data.

Benefits of the solution

- Create and collect forms easily and securely

- Integration ensures that all Form data is automatically stored and organized in M-Files as metadata

- Nive Forms meets GDPR standards

- Use anonymous or strong authentication

- Setup workflows to automate the process of form submissions

An M-Files-focused alternative to traditional form creation software, offering a tailored solution that better aligns with M-Files' capabilities and user needs.
